

ICE & DUST-AWAY PLUS

ICE & DUST-AWAY PLUS is a solution of calcium magnesium acetate (CMA) and potassium formiate.

ICE & DUST-AWAY PLUS is an environmentally friendly de-icer used for the prevention of slippery roads and as a dust-binding agent.

ICE & DUST-AWAY PLUS is a de-icer imposing no strain on nature as opposed to conventional road salt.

PRODUCT DESCRIPTION

ICE & DUST-AWAY PLUS is produced by letting acetate react with caustic lime and magnesium oxide and adding potassium formiate.

ICE & DUST-AWAY PLUS can easily be applied by sprayer or spreader boom and handling and storing are completely stable.

<i>ICE & DUST-AWAY PLUS</i>	Bulk density at 20 °C:	1.2 g/cm ³
	pH:	8 ± 1
	Freezing point:	-19 °C

CAPABILITIES

ICE & DUST-AWAY PLUS is used to prevent roads, footpaths and other pedestrian areas from becoming slippery and to remove ice and snow.

ICE & DUST-AWAY PLUS is used to reduce particle contamination in air / the amounts of unhealthy inhalable dust.

ICE & DUST-AWAY PLUS is well suited for areas in which dogs and cats move about as the product does not dry out the animals' pads in the same way as conventional salt.

ICE & DUST-AWAY PLUS is well suited for areas near plantation because it has no detrimental effects on plants.

PRECAUTIONS

ICE & DUST-AWAY PLUS is biological degradable.

ICE & DUST-AWAY PLUS is not inflammable.

ICE & DUST-AWAY PLUS should be shaken or stirred before use to avoid sedimentation.

If the product gets into contact with the eyes, flush with large amounts of water and consult a doctor. Bring the present data sheet.
